## 4. Your satisfaction is my priority

As an independent Travel Counsellor, I work exclusively for you. I'm a preferred partner of many reputable suppliers, but my loyalty lies with providing you the best experience throughout your entire journey.

## 5. Your peace of mind is my mission

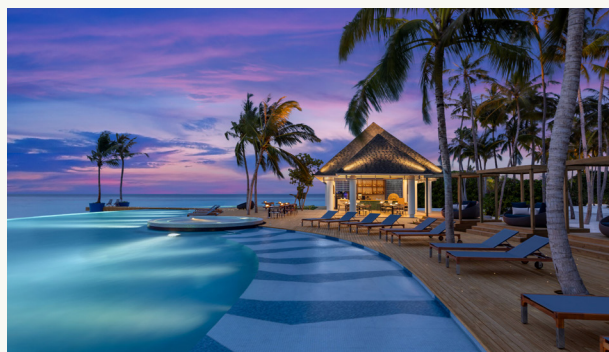

I take your travel plans and financial security seriously. I believe that flawless trips start with peace of mind. With me, you have guaranteed financial protection, and I'm always here to handle any changes or unexpected situations.

# 100% Financial Protection

It's important to me that you're not worrying about losing money when you should be looking forward to your holiday! Your peace of mind is so important to us that Travel Counsellors introduced its Trust – a financial guarantee to cover every single booking.

Our Trust is much more comprehensive than basic ATOL protection, because you're covered for everything, not just the bits of your travel which include flights.

From airport parking to transfers to car hire, when you're booking travel with me every penny is protected. No ifs, buts or maybes.
